INDIA.

Report from Calcutta—Inspection of vessels.

Passed Ass't. Surg. E. K. Sprague reports, January 28, as follows:

During the week ended January 23, 1904, one vessel, the steamship *Bechuana*, left this port for New York with a total crew of 54, of which 33 were Lascars. The clothing and effects of the latter were disinfected.

Report of the Pasteur Institute of India—Preparation of an antirabic serum.

The Pasteur Institute of India was founded in 1893 and was incorporated in 1901. It is located in Kasauli, Punjab, in the northwestern part of India in what is perhaps the most salubrious climate of the country.

The number treated is gradually increasing, and with the work which is being developed along other lines than against rabies the beneficial influences of the institute are being very widely distributed. In 1901 there were treated 321 cases; 1902, 543 cases; 1903, 584 cases.

The percentage of failures for 1901 is not at hand, but during the years 1902 and 1903 it was 1.28 and 1.02 per cent, respectively, a very creditable showing when it is known that during the first year 178
